

## **Windows 7 Dial Up**

Click on 'Start' (circle lower left hand corner)

Go to 'Control Panel'

Click on 'Network and Internet'

Click on 'Set up a new connection or network'

Click on 'Set up a dial up connection'

Click 'Next'

The next screen will be all the ISP info...

- 1.) Dial-up phone number: 2585600
- 2.) User name: username all lower case letters
- 3.) Password: password all lower case letters
- 4.) Put a check in 'Remember this password'
- 5.) Connection name: geetel
- 6.) Put a check in 'Allow other people to use this connection'
- 7.) Connect (Which will dial out to the Internet)
- 8.) Once connected you will get a close button in the lower right corner
- 9.) You will get a network location pop up, select Public
- 10.) Click Close in lower right hand corner
- 11.) Click Change adapter settings on the left hand side
- 12.) Right click on the geetel icon
- 13.) Left click on Create Shortcut
- 14.) You will get a pop up window, click on Yes
- 15.) Click X in upper right hand corner to close out of Network Connections
- 16.) You now ready to browse the internet
